

Hope Needs Your Help!!

We were recently contacted to help a senior Shih Tzu in a rural shelter. This dog stood no chance of making it out of the shelter without our help. Hope is 13 years old. You have only to look at her sparse severely matted coat to see she has had a hard life. Upon further inspection you would discover that the skin underneath is raw with sores due to severe flea dermatitis complicated by yeast infections. Hope is deaf and has limited sight due to chronic dry eye. In her neglected mouth you will find only 6 teeth. She was probably bred all her life and now has 6 mammary tumors.

One of the hardest decisions I make when rescuing dogs is determining who can fit into our foster program. Bekye E. made the decision to rescue Hope easy for me when she committed right away to provide love and a forever foster home for this precious girl. Hope will never be without a home again. She will be given everything she needs to recover. Hope will discover what it is to know a loving touch and a warm bed. She will be fed a healthy premium food diet and receive supplements to speed her recovery. We will ease her pain and mend her little body and soon this little mess will blossom into the beautiful little girl she was meant to be, bright eyes, shining coat and wagging tail! Can you see it too, our little diamond in the rough with the hope of a new life in her eyes? She will require extensive vetting to make this a reality. Can you help us to help Hope? Your gift no matter how small can make a real difference in this little girl's life. You can witness the difference your gift has made as you follow her progress on our website. Hope thanks you and we thank you for any help you are able to give.
